Project Proposal

(Submit by 18-02-2021)

Project Title

SMART TRAFFIC CONTROLLING SYSTEM.

Project Team

Team Designation	Name	UID	Section
Lead	UJJWAL KUMAR	17BCS2953	CI-3(A)
Member1	GOURAV KUMAR	17BCS2961	CI-3(A)
Member2	MONIKA KUMARI	17BCS2962	CI-3(A)

Project Objective

In the current context of smart city, specifically in the industrial and market zones, the traffic scenario is very congested most of the time particularly at the peak time of business hours. Due to increasing growth of population and vehicles in smart and metropolitan cities people face lot of problem at the major traffic points of the business towns. Not only it causes travelling delays, it also contributes to environmental pollution as well as health hazards due to pollution caused by vehicle fuels. so we will make it dynamic traffic light control system Which control by some sensor's.
